PROFESSIONAL SUMMARY

Passionate and enthusiastic Computer Science Engineering student with hands-on experience in the MERN (MongoDB, Express.js, React, Node.js) stack. As a proactive student developer, I have built responsive web applications and real-time projects, demonstrating a quick ability to learn and adapt in fast-paced environments. Skilled in both front-end and back-end development, with a focus on building user experiences. Eager to contribute to a real time projects , bringing creativity, strong problem-solving skills, and a commitment to continuous improvement.

EXPERIENCE

- HCLTech · Internship** July 2023 - Sep 2023
Software Development Intern Chennai
 - Developed a C++ module for unit conversion which converts both currency and temperature values to other values on user input .

EDUCATION

- Sathyabama Institute of Science and Technology, Chennai** 2021 - 2025
Bachelor of Engineering, Computer Science and Engineering. CGPA : 8.24
- Tirumala Junior College , Visakhapatnam** 2019 - 2021
Board of Intermediate Education, AndhraPradesh. Percentage : 89.9
- S.F.S School , Kasibugga** 2018 - 2019
Board of Secondary Education, AndhraPradesh. CGPA : 9.2

PERSONAL PROJECTS

- Chat App** December 2024 - ongoing
Real-time chat application using React.js and Firebase
 - Developing a dynamic real-time chat application using React.js for the front-end, SASS for styling, and Firebase for managing user authentication and chat databases.
 - Tools & technologies used : React.js,SASS ,Express.js, Firebase, Github
- Task Management App** November 2024
Full-stack Web application to efficiently manage tasks
 - Designed and developed a task management web app that features CRUD operations for tasks, real-time updates, and a user-friendly interface. The front-end is built with React.js, styled with CSS modules, and the back-end is powered by Node.js and Express.js. MongoDB is used as the database to store tasks.
 - Tools & technologies used : React.js, CSS, Node.js, Express.js, MongoDB, GitHub
- Discord Translation Bot** August 2024
A Discord bot designed to translate messages in real-time between English and German channels using the Rapid API
 - Developed the bot with Node.js, using Discord.js for bot integration and the Rapid API for accurate translations. Implemented features to automatically detect the input language and send the translated message to the respective channel.
 - Tools & technologies used : Node.js, Discord.js, Rapidapi, Bot-Hosting.net

SKILLS

Programming Languages :C++,Python(Basic)
Web Technologies : HTML5, CSS3, React ,SASS, Node.js, Express.js
Version Control : Git , GitHub
DataBases : MongoDB , SQL
Developer Tools: VS Code, Postman .
Soft Skills : Problem Solving, Teamwork, Communication, Adaptability, Self-Motivation

CERTIFICATION COURSES

- Responsive Web Design** freeCodeCamp 2024
- Introduction to MongoDB for Students** MongoDB University 2024
- MongoDB Node.js Developer Path** MongoDB University 2024
